Codebook WageIndicator Collective Agreements Database – Version 4

Daniela Ceccon, WageIndicator Global Database Manager

Gabriele Medas, WageIndicator Collective Agreements Database Manager

WageIndicator.org

About WageIndicator Foundation - www.wageindicator.org - office@wageindicator.org

WageIndicator started in 2001 to contribute to a more transparent labour market for workers and employers by publishing easily accessible information on a website. It collects, compares and shares labour market information through online and face-to-face surveys and desk research. It publishes the collected information on national websites, thereby serving as an online library for wage information, Labour Law, and career advice, both for workers/employees and employers. The WageIndicator websites and related communication activities reach out to millions of people on a monthly basis.

The WageIndicator concept is owned by the independent, non-profit WageIndicator Foundation, established in 2003. The Foundation is assisted by world renowned universities, trade unions and employers' organisations. It currently operates national websites in 140 countries. Its staff consists of some 100 specialists around the world. The Foundation has offices in Amsterdam (HQ), Ahmedabad, Bratislava, Cape Town, Venice and Islamabad.

1 Introduction

This document contains the variable information of the dataset of the WageIndicator Collective Agreements Database. This document contains information about all CBAs that have been entered into the database from its start in 2013 until January 2021. Detailed information about the WageIndicator Collective Agreements Database can be found on the https://example.com/home-page of the Database and in the 2017 codebook.¹

This document has been prepared as part of the **COLBAR** project.
